PROFILE**

ON TRACK WITH ALLWORKS

Allworks WA Pty Ltd is a leading provider of Dry and Wet Hire equipment and personnel for the civil and rail industry.

Allworks is a family owned business based in Western Australia that has been operating since 1999, our key people each have over 30 years of experience in rail and civil works. **Allworks** is an environmentally conscious, quality compliant and AS4801 OHS Management Systems accredited organisation. Our vision statement of *On Track, On Time* drives and guides our well-equipped organisation to operate in a dynamic environment, offering solutions to ensure your project timing and budget is maintained within your expectations keeping you *On Track, On Time*.

While our office is based in Wangara, we also have depots in Port Headland and Kalgoorlie and our national footprint covers programs and projects throughout Western Australia, Victoria, Queensland and New South Wales.

Allworks has demonstrated the ability to produce efficient, consistent **quality results...**

PROJECT BASE

Allworks has demonstrated the ability to produce efficient, consistent quality results owing to a long history of providing civil, rail and plant hire services throughout Australia. Despite the variable demands and requirements within the construction and resource sectors, we have a proven track record of providing the right plant and equipment and the right operators.

The pillar of our success to date can be attributed to our industry alliances and relationships developed over the past 20 years. We have the capability and expertise to deliver projects *On Track, On Time*.

Our client & project base:

- » **John Holland**
The new Roy Hill railway line
- » **Laing O'Rourke & John Holland**
RGP 2 to 5 track upgrade and duplication
- » **Select**
The new FMG railway line
- » **John Holland**
Redmont Track Remediation and Mine Ballast & Geraldton Port
- » **Public Transport Authority of WA**
Annual machinery and labour hire
- » **John Holland**
Annual plant hire on Brookfield Rail Network
- » **Leighton Kumagai**
Perth City Link
- » **Aurizon**
Narngulu siding update, Geraldton

OPERATIONAL LOCATIONS

OPERATIONS & SERVICES

PLANT & EQUIPMENT HIRE

- » Front End Loaders which are IT
- » Excavators / Hi Rail Excavators
- » Backhoes
- » Bobcats (possi and wheeled)
- » Graders
- » Rollers
- » Fuel Trucks
- » Prime Movers including Deck Wideners
- » Gang Trucks
- » Trailers
- » 6 Wheel Water Carts
- » Semi Water Carts
- » Flatbed Trucks with Hiab
- » 6 Wheel & Semi Tip Truck

RAIL EQUIPMENT HIRE

- » Attachments to excavator include platypus, octopus, tamper head, sleeper grabs and rail threaders
- » Rail Tensors
- » All welding hardware
- » Rail Saws
- » Rail Profile Grinders
- » Rail Shears
- » Hand Tampers
- » Sleeper Drills
- » Rail Clipping Machines
- » Spike Pullers
- » Rail Tong

LABOUR HIRE

- » Supervisors
- » Operators
- » Truck Drivers
- » Mechanics
- » Flag Personnel
- » Welders
- » Labourers

WORKSHOP

- » Mechanical
- » Boilermaker/Fabrication

PLANT & EQUIPMENT HIRE

With depots in Wangara and Port Hedland and a fleet of over 100 machines and vehicles, Allworks has the ability to provide to any location mine spec wet and dry hire equipment and some with rail specific items such as tamper heads on excavators and sleeper pullers.

HI-RAIL EXCAVATORS

YANMAR ZERO SLEW 8T AND CAT 12T WITH ON RAIL CAPABILITY AND FAIL SAFE BRAKES

- » Ballast under-cutter, tamping heads, sleeper grabber attachments, rail threader
- » Hi-Rail with rail trailers
- » 4.5 x 2.4 rail trolleys available

FRONT END LOADERS

VOLVO IT LOADERS L50 TO L120

- » Includes Bucket, Jib and Forks

BACKHOES

CATERPILLAR 432E LOADER

- » Extenda Hoe 4 in 1 Bucket

EXCAVATORS

CATERPILLAR, HYUNDAI, VOLVO, KOMATSU AND HITACHI RANGING FROM 1.5T TO 30T

- » Rubber tyred 17 tonne excavator
- » Variety of buckets, rock breaker, tamping heads and grabber attachments available

BOBCATS

CATERPILLAR 216, 247B, 257B, MUSTANG

- » Skid steer and wheeled
- » Includes Bucket, Jib and Forks
- » Variety of buckets, broom, ditch witch and ripper attachments available

GRADERS

VOLVO G930 GRADER

- » 14ft x 635mm blade

ROLLERS

VOLVO SD4SD 4.5T SINGLE DRUM COMPACTOR

- » Dynapac 2 tonne Twin Drum Compactor

PLANT & EQUIPMENT HIRE

WATER CARTS

ISUZU, HINO, FREIGHTLINER AND MITSUBISHI

» 13,000 to 30,000L capacity

TIP TRUCKS

HINO, VOLVO AND FREIGHTLINER 6 WHEEL TIPPERS

» Semi tri-axle tipping trailer

FLATBED TRUCKS

HINO, ISUZU, MITSUBISHI

» Includes Hiab, ramps and tool boxes

PRIME MOVERS

WESTERN STAR, VOLVO, KENWORTH, HINO AND ISUZU

TRAILERS

» Drop deck, tandem, tri & quad-axel, deck wideners and tag-along available and extendable

GANG TRUCKS

HINO, ISUZU, MITSUBISHI

All equipment available for Wet and Dry hire. Rates available on requests.

RAIL

Allworks' understanding of the requirements of modern rail services and our customers both current and future, combined with our extensive rail experience ensures that we deliver on our vision of *On Track, On Time*.

Our end-to-end rail infrastructure capabilities enable us to think creatively and laterally and as we understand every aspect of every rail scenario. We can innovate more efficient and responsive ways of working with you to safeguard the completion of your project on time and on budget.

Allworks' team of highly experienced, qualified and accredited specialists includes:

- » Civil/infrastructure engineering
- » Rail construction and maintenance
- » Specialised safeworking and protection
- » Project and site specific management
- » Stacker, gantry and reclaimer welding and maintenance
- » Terminal and siding infrastructure maintenance, inspection and reporting
- » Management of terminal operations
- » Specialised rail operations support
- » Contracting and consultancy

Allworks knows that our equipment and personnel are of great benefit, not only to the track owners but also infrastructure companies specialising in both routine and unplanned track maintenance. When services are integrated, everything runs more smoothly and solutions are found more quickly. That's why our clients across Australia rely on us to provide rail infrastructure and rail support services throughout the country. We save time, we minimise delays, we deliver.

LABOUR HIRE

Allworks does not compromise on quality when choosing our people. Our pool of trained and highly skilled personnel is readily available for your project of any scale or size. All recruitment and mobilisation is managed in-house creating a faster, more efficient process whilst maintaining audit compliance and driving continuous improvement.

Allworks is able to supply Project Managers, Engineers, Safety Advisors, Mechanical Fitters, Supervisors, Operators, Flag Personnel, Labourers and more.

WORKSHOP

To support the extensive Allworks fleet and keep your machinery working, we have a highly qualified team backed with leading edge facilities and equipment.

MECHANICAL

Our Mechanical workshop operates from our depot in Wangara. Our qualified mechanics have over 51 years' experience between them with knowledge of workshop and field service work. They are highly capable of repairing machinery from road trains, hi rail excavators and earthmoving equipment no matter how challenging the work or the location. Services include machine quarantine, trucks and LV services, upgrades, modifications, engine overhaul, rebuilding and large and small repairs.

BOILERMAKER/FABRICATION

Allworks' qualified Fabrication workshop can manufacture any product to any specification and requirements—prototypes, one-offs or multiples. Our Boilermakers offer repairs on mobile plant and equipment and fabrication services including:

- » Fabrication of buckets (excavator, loaders, bobcats and backhoes),
- » Handrails (for machinery)
- » Excavator attachments (platypus and sleeper grabs)
- » Hi Rail Trolleys
- » Truck trays
- » Stainless steel benchtops
- » Oil bund areas, Pods (small or large fuel pods)
- » Aluminium repairs and fabrication
- » Height Restrictors

FEATURED WORKS

- » Supplying machinery, labour and rail specific tools and attachments to the BHP Billiton expansion projects from RGP 2 to 5 in the Pilbara with subcontractors for the last seven years.
- » Supplying machinery, labour and rail specific tools and attachments for the construction of the new FMG railway line in the Pilbara with subcontractors for two years.
- » Supplying machinery men and rail specific tools and attachments for the construction of the new Roy Hill railway line in the Pilbara with subcontractors for two years.
- » At Coogee Chemicals built 1.5km of track for WBHO Infrastructure which includes two turnouts on greenfield site.
- » Aurizon at Geraldton siding upgrade at Narngalu pulling out eight timber turnouts, reconnecting track, placing two turnouts and building 250m new track.
- » Placement of crane rails and welding at Worsley for John Holland.
- » Welding of rails on night shift for Public Transport Authority of WA (PTA) and cutting out defective rails and welding in new rails.
- » Building of seven concrete bearer turnouts for Georgiou on the Perth Freight terminal upgrade including 2.5km of concrete track.
- » Construction of Stacker track for Cimeco at the Cape Preston facility for Sino Iron. This work consisted of two standard gauge tracks and four mono rail for a length of 920m each.
- » Welding of crane rail for Boddington Gold Mine, approximately 56 welds.
- » Extension of Loch Street platform and Grant Street platform for PTA which was done alongside running passenger trains.
- » Construction of Sadleirs Yard alterations stage one and two. This work included the construction of five 41kg turnouts 1-8 and 1-10 on timber bearers and about 2km of track in the yard.
- » Building of five 1-20 concrete bearer turnouts and assisting installing them for the Macmahon Leighton Joint Venture in the RGP 5 Project in Port Hedland.
- » Building of spur line into SCT one turnout and 250m of timber sleeper tracks.
- » Upgrade of the Prospector dock at Kalgoorlie for PTA from wood sleepers to concrete sleepers and retimber the turnout on the main line.
- » Building of formation alongside the running line at Dalglish Station on the Fremantle Line for new siding extension. This work involved building up the earthworks along the embankment from a height of 0.5m to 6.5m high and working alongside the running line for PTA.
- » Placement of masts and 1.2km of overhead wiring on the Perth to Currambine line at the Joondalup deviation and removal of old redundant wiring and connection of the wires to the existing system on two major slews.
- » Assist MVM Rail with labour and machinery to build the track deviation at Joondalup including the shutdown slews.
- » Build and assist with operation of Flash Butt yard for new Mandurah Rail link from Perth.
- » Assist John Holland Rail in the Metro area on their Maintenance contract with PTA on major shut downs. Supplying loaders bobcats and tip trucks taking up sections of track and replacing formation sleepers and rails and resleeper projects on night shift over the past eight years.
- » Assist Leighton Kumagai with track construction and labour hire and assist with earthworks in the Perth to Mandurah line tunnel in the CBD.
- » Involved with station upgrades on the Northern Suburbs with Lakis Construction completing the earthworks and level crossing installations on the northern suburb rail area with work being done on day and night shift.
- » Installed turnouts into shed at Forrestfield facility for Gemco Rail.
- » Assisted with track laying and slews at Kenwick Track Deviation for John Holland.
- » Build and construct 1-8 turnout on steel bearers and 250m of steel sleeper track at Nowergup Depot for Lakis Construction who were building the rail-wheel lathe facility.

LEADERSHIP TEAM

ANGELO SARICH

FOUNDER, MANAGING DIRECTOR

Angelo has been working in the rail industry for over 30 years. He began his career with Westrail, finishing at management level with responsibility for Capital Works programs involving infrastructure maintenance and access roads. However, after 16 years in the Government rail industry and four more years with a John Holland Rail division, Angelo wanted to challenge himself more and established **Allworks** in 1999.

Angelo's respected expertise and relationships in rail infrastructure management in Western Australian Urban and Freight networks, placed him in a unique position to build the success of **Allworks** with his proven track record.

His extensive background and in-depth knowledge of the Rail Safety Act & Regulations as well as his experience in civil and rail infrastructure have been the core ingredient to the success and delivery of complex infrastructure projects across Australia.

Angelo is driven to ensure that the team and their extensive fleet of plant and equipment achieve efficient and effective outcomes for all their client contracts through the consistent delivery of the **Allworks** vision of *On Track, On Time*.

ROBIN SARICH

FOUNDER, FINANCE MANAGER

Since founding **Allworks** with Angelo in 1999, Robin has been pivotal in the growth and success of **Allworks**. Robin's background in accounting and administration, coupled with an in-depth knowledge of rail and civil infrastructure needs, has enabled her to build the back end of the business to support all aspects of contract management and business operations.

Robin's strong financial skillset has enabled her to manage an ongoing machinery purchase program and debt ratios that keep the fleet renewed and the business protected.

Robin is passionate about ensuring quality and efficiency throughout the business as well as supporting staff training and development so that the team of over 40 skilled staff are highly knowledgeable and proficient in delivering projects *On Track, On Time*.

PETER HULSMANS

PLANT AND PROJECTS MANAGER

Peter has a civil and mechanical background and is highly experienced in all aspects of plant and equipment management and hire, tendering work and project management.

Peter has managed projects on behalf of **Allworks** in various locations with responsibility for labour and plant and equipment including; Geraldton yard rationalization at Narngulu; Karratha building Stacker Track for Cimeco at Cape Preston; Build new track at Wheel Lathe shed at Nowergup for Lakis Construction; RGP 5 BHP Billiton; Sadleirs Yard rationalization; Perth Freight Terminal upgrade for Georgiou Stage 1; and various Public Transport Authority contracts and upgrades.

LEADERSHIP TEAM

TOM BUTCHER

WORKS COORDINATOR

Tom has been working at **Allworks** since 2011. He works closely with Angelo and Peter and coordinates the workshop and maintenance scheduling for the **Allworks** Fleet of Plant and Equipment. Tom also manages daily operations and pre-starts and ensures that all issues are reported directly to him allowing him to manage positive outcomes effectively ensuring projects and client contracts stay *On Track, On Time*.

Tom has built a reputation as someone who gets the job done quietly and efficiently and is a valuable asset for clients wanting to keep their projects *On Track, On Time*.

CASEY BUTCHER

ADMINISTRATION MANAGER

Casey manages the administration functions of **Allworks** including accounts payable & receivable, financials, document control, administrative systems and processes as well as training & assessment for the team. Having grown up in the business Casey has quickly learnt the ropes and is a competent leader that is looking to guarantee the success of **Allworks** well into the future.

Casey's no fuss attitude and passion for the business ensures that the administrative support for your dealings with **Allworks** will run smoothly and keep your project *On Track, On Time*.

ALEX PELLICANO

BUSINESS DEVELOPMENT MANAGER

Since 2003, Alex has been working with customers to ensure their needs and schedules are met. Establishing his career in capital equipment sales in 2012 provided him with extensive knowledge of the civil and mining industries. In 2015, Alex moved into the equipment hire field where he serviced a diverse range of clients based in the Northern Goldfields of W.A. This breadth of experience has provided Alex with the skills and tools to establish and maintain the long-term relationship required to best service you.

Alex has the knowledge, enthusiasm and interpersonal skills that will ensure your dealings with **Allworks** run *On Track, On Time*.

The **Allworks** Leadership Team is supported by a diverse team of vastly experienced professionals and highly skilled trades people, working together to optimise overall productivity and deliver the **Allworks** vision of *On Track, On Time*.
